Vulnerability Analysis

| Dependency | Severity | Description | Fixed Version |
|----------------------|----------|---|---------------|
| org.jfree:jfreechart | HIGH | JFreeChart v1.5.4 was discovered to be vulnerable to <code>ArrayIndexOutOfBoundsException</code> via the <code>'setSeriesNeedle(int index, int type)'</code> method. NOTE: this is disputed by multiple third parties who believe there was not reasonable evidence to determine the existence of a vulnerability. The submission may have been based on a tool that is not sufficiently robust for vulnerability identification. | Not specified |
